About Me

I am a Frontend developer, trained by a professional software development school in Germany. I built Front-End projects alone and in groups that you can find in my public portfolio. I combine my experience in project management in the metallurgical industry with my acquired development skills.

Main Stack:

- TypeScript, Angular
- JavaScript
- HTML, SCSS

Side Stack:

- Java (Spring)
- MySQL

Skills

- **Building Applications with JavaScript** (Web-Applications, Jump-and-Run-Games, Responsive Websites)
- **Using Angular to build material design applications** (Built a CRM prototype deployed in a databank and my own webpage)
- **Software-Project Management:** Understanding Scrum & Agile Project Management.
- **Working in a Software-Team:** During learning coding, I did several group projects where I learnt how to develop a software project in a team.
- **Other relevant skills:** I learnt Java and concepts of OOP as well as SQL and Github.

Professional Experience

Tubex GmBH / Tooling Specialist

NOV 2017 - PRESENT, RANGENDINGEN.

- Strengthen technical communication between the Brazilian and German engineering departments.
- Reporting and assisting the importation of new technologies from one factory to another.

Tubex do Brasil / Process Engineering Leader

JUNE 2013 – OCT 2017, ITUPEVA - BRAZIL

- Managing new product projects to the main clients in the region such as BDF, Unilever and P&G.
- Responsibility in improving the factory efficiency through lean manufacturing principles.
